- Education Faculty – Herat  
(2012-2015)  
Bachelor s Degree - English  
Literature
- WASSA Web-Design Course  
(2025-2026)

## About Me

I am a web-designer focused on building clean and user-friendly websites. I like working on creative projects, using my ideas to design attractive layouts, and continuously exploring new design trends.

Currently, I am improving my skills in front-end development, especially in responsive design, modern layouts and JavaScript. I also have a background in teaching, which helped me become more patient, organized, and comfortable working with people.

## Work Experience

### Web Designer-BTB Company (2026)

- Designing simple and responsive websites
- Working on clean layouts and improving user experience
- Helping with small updates and improvements on projects

### English & German Teacher (2010-2017)

- Teaching English to students at different levels
- Teaching basic German
- Preparing lessons and helping students improve their skills

### Educational Assistant (2018-2021)

- Helping organize classes and schedules
- Supporting teachers and students
- Managing exams and students' records
- Supervising the teaching of teachers

## Skills

---

- HTML & CSS
- Bootstrap
- WordPress
- Responsive Web Design
- UI/UX understanding
- Git & GitHub
- ICDL (Word, PowerPoint, Excel)
- Basic JavaScript
- Teaching

## Languages

---

- Persian (Native)
- English (Upper Intermediate)
- German (Intermediate)

## Projects

---

- **Personal Portfolio Website**

Designed and developed a modern and responsive personal portfolio website to showcase my work.

- **WordPress**

Worked on WordPress websites locally, focusing on basic customization and content management.

- **Bootstrap Project**

Developed a responsive website using Bootstrap and its grid system.

- **CSS Practice Project**

Built a small project to improve styling and layouts.

## Extra

---

- I am always trying to learn new things and get better at web design. I am especially interested in building modern and responsive websites and growing as front-end developer.
